

Paul Peterson

Sogeti

Paul has nearly twenty years of professional experience in integrating leading edge technologies into business. Areas of expertise include **PMO implementation and operation**, project rescue and turnaround, business strategy formation, **ERP implementation**, enterprise architecture, data architecture, facilitation and communication. Paul has an expert ability to vision solutions and **communicate effectively** with everyone from business executives to technical staff.

Paul has assisted companies **envision solutions** using a variety of methodologies. Once depicted and communicated, he has then **helped prioritize** using techniques such as balanced scorecards, and portfolio management and governance.
